Composition of the Examination Committee

Name of the PhD researcher:	Lukas Vanpoucke
Student Number:	R0666669
Provisional title of your PhD:	Multivariate polynomials: applications in globally optimal systems identification and algorithms

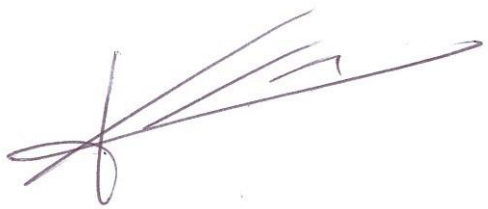

Take into account the following:

- The Examination Committee consists of the chair, the supervisor, any co-supervisor(s) and at least four additional members.
- Every member of the Supervisory Committee is an additional member of the Examination Committee, unless he/she explicitly requests not to be; You will need to submit this request (eg. an email) together with this form.
- At least two of the additional members of the Examination Committee are not in the Supervisory Committee;
- At least two additional members must belong to the KU Leuven;
- At least one member must not belong to the KU Leuven; Include the current occupation, contact information and sufficient additional information about external members. This information should make clear to the Faculty Doctoral Committee what the expertise of this member is. This can be a cv and publication list or any other information (eg. Web-based) which you find relevant.
- At least half of the additional members must be professors (or equivalent) from national or international universities or technical colleges;
- Examination committees must include at least one male and at least one female member
- For doctorates in Engineering Technology, at least one of the additional members must be a representative from the industry to which the research is related (his can be a co-supervisor or assessor);
- If you are doing an interdisciplinary PhD, the examination committee must include the supervisor and at least one other representative from both disciplines.
- The chair of the examination committee
  - is a professor from the faculty awarding the PhD degree;
  - was not a member of the supervisory committee,
  - belongs to a different research group than the corresponding supervisor and (co-)supervisors: the research group is the department section ('afdeling') in the KU Leuven organisational chart, unless otherwise specified to ADS by the chair of the department. (so, if you are unsure, ask your department chair).
- For members who have obtained their PhD elsewhere and who are currently affiliated to KU Leuven as a postdoc, please include at which institution and on which date they obtained their PhD. For KU Leuven members make sure to mention their research group/unit and function (see KU Leuven who's who).

Name and affiliation of the member	Indicate the role of this member
	Chair of the Examination Committee PhD researchers in Science need to indicate which member will be the chair. In the other faculties, the Faculty Doctoral Committee will *add* a chair to the committee.

Prof. Bart De Moor (Professor at STADIUS, ESAT, KUL)	**corresponding supervisor**
Prof. Karl Meerbergen (Professor at NUMA, Dept. of Computer Science, KUL)	☐ Supervisor / Co-Supervisor ☒ Assessor (member of your supervisory committee) ☐ Additional member (*not* member of your supervisory committee)
Prof. Philippe Dreesen (Professor at Maastricht University, Dept. Of Advanced Computing Sciences)	☐ Supervisor / Co-Supervisor ☒ Assessor (member of your supervisory committee) ☐ Additional member (not member of your supervisory committee)
Prof. Fatemeh Mohammadi (Professor at NUMA, Dept. of Computer Science, Dept. of Mathematics, KUL)	☐ Supervisor / Co-Supervisor ☐ Assessor (member of your supervisory committee) ☒ Additional member (*not* member of your supervisory committee)
Prof. Lieven De Lathauwer (Professor at STADIUS, ESAT, KUL)	☐ Assessor (member of your supervisory committee) ☒ Additional member (*not* member of your supervisory committee)
	☐ Assessor (member of your supervisory committee) ☐ Additional member (*not* member of your supervisory committee)
	☐ Assessor (member of your supervisory committee) ☐ Additional member (*not* member of your supervisory committee)

The corresponding supervisor needs to approve the composition of the Examination Committee, by sending an email to the doctoral researcher or by signing below:

Name of the corresponding supervisor: Prof. Bart De Moor
Signature of the corresponding supervisor 

The PhD researcher needs to upload this document via his/her KULoket tool, including:

1. approval email by corresponding supervisor if he/she did not sign this form
2. cv's of members not belonging to the KU Leuven
3. approval email by any members of the supervisory committee who wish not to be in the Examination Committee

The approval signatures below will be taken care of by the Faculty Administration after the PhD researcher has submitted this form:

Approval by the Faculty Doctoral Committee:
Approval by prof. Ronald Cools (for the rector):
